

30<sup>th</sup> March 2020

Dear All,

On behalf of the Board of Trustees, the charity staff and all volunteers, we would like to express our support to all individuals and families directly and indirectly affected by COVID-19.

We are very aware of the impact, stress and worry that such a pandemic may place on those living with glycogen storage disorders and we want to reassure you that the charity is continually monitoring the situation.

We are very well connected to the Government, NHS and all GSD medical departments, as well as the British Inherited Medical Disease Group (BIMDG). We recently circulated the most up to date advice from these sources and we will continue to update this advice as new information is provided.

If you would like to find more information on how you can protect yourself and others, please visit our website at [www.agsd.org.uk](http://www.agsd.org.uk) and follow the links through to our dedicated webpage regarding COVID-19. Here you will find advice, guidance and support, as well as a webinar video from the BIMDG.

Although we are a small charity with limited resources, we want to reassure the AGSD community that we are here for you. We will continue to work to support you wherever possible during these difficult weeks and months.

In the meantime, please abide by the government guidelines to ensure that your own, and others health, is not placed into jeopardy.

On behalf of the Board of Trustees,

A handwritten signature in blue ink that reads 'Nick Jones'.

Nick Jones  
Acting Chair of the Trustee Board
